**“Conscious leadership changes the world’s landscape”**

Keith Merron, Ed.D, spent years searching for the Heart and Soul of Remarkable Leadership – and found it! Now he shares those secrets with organizations and professional groups across America.

Keith Merron is the Founder and Managing Partner of Avista Consulting Group, an organizational consulting and leadership development firm dedicated to helping organizations with bold visions achieve sustainable high performance and industry leadership. He has 30 years of experience assisting executives and managers in business, government and education.

Dr. Merron is a powerful and compelling leadership and motivational speaker. He makes a deep and enduring impact. He believes that the wellspring from which great leadership flows cannot be accessed by simply sharing information and entertaining. The style of speaking that leadership speakers employ may be profitable for them and put a smile on the faces of their listeners, but it won't ignite passion, purpose, and resolve; these can only come from within.

Keith's medium and message are designed to tap into and deepen the potential for leadership greatness that lives within everyone. He inspires others to find their own capacity to bring forth their full leadership abilities.

Keith's manner is warm, present, and filled with feeling; he engages others deeply — he draws people in and draws out their own feelings, thoughts, barriers, and capabilities. Like many others, he can tell an entertaining story, but his greatest gift is his ability to speak from the heart and invite others to do the same.
